

9th ICOLD European Club Symposium, April 10-12 2013, Venice (Italy)

9th ICOLD European Club Symposium

The Symposium that will be held in Venice on April 10-12, 2013, dedicated to "Sharing Experience for Safe and Sustainable Water Storage", will be the 9th International Symposium organized in the context of the activities of the ICOLD European Club. The aim of the Club is the exchange of information and experiences on matters of common interest, and is pursued by encouraging regular European Symposia and Working Groups about subjects related to the dam design, construction, operation, maintenance and social, environmental and economic aspects of dams and reservoirs.

Groups about subjects related to the dam design, construction, operation, maintenance and social, environmental and economic aspects of dams and reservoirs.

The previous Symposia of the Club were the following:

- ▶ 1993, Chambéry (France), "Maintenance of Older Dams"
- ▶ 1995, Crans Montana (Switzerland), "Research and Development in the Field of Dams"
- ▶ 1996, Stockholm (Sweden), "Repair and Upgrading of Dam"
- ▶ 1998, Barcelona (Spain), "New Trends and Guidelines on Dam Safety"
- ▶ 2001, Geiranger (Norway), "Dams in a European Context"
- ▶ 2004, Canterbury (Un. Kingdom), "Long-Term Benefits and Performance of Dams"
- ▶ 2007, Freising (Germany), "Dams in Europe - Tasks and Challenges"
- ▶ 2010, Innsbruck (Austria), "Dam Safety - Sustainability in a Changing Environment"
